What is an HMO plan?

Easier on the wallet, HMO plans are designed to save you money on out-ofpocket costs. With this plan type, you are required to choose a primary care provider (PCP) and stay within a network of providers to receive coverage under the plan, except for emergency services and urgent care.

HMO members can see a specialist, but their PCP must give them a referral to the specialist in order to get benefit coverage.

Choose a Health Plan of Nevada PCP when you enroll. For a complete list of providers, visit **HealthPlanofNevada.com**. Make sure to include your PCP on your application form. If you don't select a PCP, we will match you with a doctor in your area. You can change your PCP at any time.

Your PCP will take care of most of your health care needs. Visit your PCP for routine care, yearly checkups and other general health concerns. Each member covered under your plan can select their own PCP, or you may all choose the same one. You may also pick a pediatrician for your child. Females over the age of 14 may select an OB/GYN in addition to a PCP.

What is an EPO plan?

EPO plans are a hybrid of PPO and HMO

plans. Like PPO plans, you do not need a referral from a PCP to see a specialist. Similar to an HMO plan, you can only use contracted providers, urgent care centers and hospitals. There are no out-of-network benefits, except for emergency services and urgent care, or medically necessary services not available through a plan provider.

Although you aren't required to select a PCP with an EPO plan, we encourage all members to choose one. Your PCP becomes the leader of your health care team and is available for routine care, yearly checkups, and other general health concerns.

What is an HSA-EPO plan?

Weigh the benefits of a consumer-directed high deductible EPO plan. An HSA-EPO is a great option if you are healthy and only want coverage in case you need it. This may be a good plan for someone who rarely sees a doctor and doesn't take prescription drugs regularly.

Things to consider with an HSA-EPO plan:

- Usually lower premiums, but insurance doesn't kick in until you've met your deductible.
- For many people, the low monthly premium is worth having a high deductible.
- You must stay within a network of providers to receive coverage under the plan, except for emergency services and urgent care, or medically necessary services not available through a plan provider.
- This plan can be paired with a HSA, which can save you money on a tax-deferred basis for health care costs.
- It also includes prescription coverage in the core, making it easier for you to reach your deductible.

Sometimes, it's not easy to understand everything there is to know about health insurance coverage.

Insurance can give you peace of mind and security. It helps pay for routine care, as well as bigger bills like if you go to the hospital or need treatment for a chronic illness.

Most insurance plans have a monthly cost. This monthly cost, or premium, can be very small, or higher depending on the insurance plan you pick. If you have dependents age 20 or under, only the oldest three will have a premium.

In addition to the monthly premium, people with insurance usually have to pay a copay or coinsurance when they go to the doctor or have a test. This cost can also range from being very small, like \$5, to being higher.

Additional information to know

Support for a hospital stay

Your doctor is your partner in health.

They will help coordinate your care if you should ever need to be admitted to a hospital on a non-emergency basis.

We will stay involved in your care. Our team will help monitor your care by performing initial and ongoing reviews. This is to make sure the health care services you receive are appropriate, provided in the right setting, and medically necessary. If you're admitted to a hospital outside of our service area, we may review your medical records to evaluate the appropriateness of the medical care, services, treatments, and procedures you received.

Returning home after a long hospital stay also requires a plan. Depending on your situation, we'll arrange for any ongoing medically necessary care, services, and equipment you need after leaving the hospital. This may include in-home care or transferring you to another facility.

Understand your pharmacy benefits

You will have prescription drug coverage from network pharmacies. Your copayment is based on levels called a prescription tier. The costs are lower on tier 1 and higher on tier 4. To find what tier your medication is on, go to HealthPlanofNevada.com or SierraHealthandLife.com.

You may be required to try step therapy.

This means you must try certain drugs to treat your medical condition before we'll cover another drug for that condition. You may submit an exception request to waive step therapy requirements or quantity limit restrictions. For a list of medications requiring step therapy or to download an exception request form, go to HealthPlanofNevada.com or SierraHealthandLife.com.

Quick lesson on prior authorization

Prior authorization is necessary to ensure benefit payment. Your provider may prescribe a health care service, treatment, equipment or medication which requires review and approval. All requests requiring a medical or clinical decision are reviewed by a licensed physician or under the supervision of one. In addition, only a physician may deny a request. To learn more, please consult your plan documents. You or your provider may file an appeal if coverage is denied. To appeal a decision, call Member Services or mail a written request within 180 days from the date of the denial to:

Know your privacy rights

We're careful to protect your privacy. This includes oral, written and electronic information. We only share protected health information (PHI) with individuals or entities responsible for coordinating your health care or administering your health benefits, unless we have your permission. And, of course, we share PHI in accordance with state and federal law. We also require our contracted providers to take similar steps to protect your PHI.

We may use your medical data to promote and improve the quality of care you receive.

When we conduct research and measure guality, we use summary information whenever possible, not PHI. When we use PHI, steps are taken to help protect it. We do not allow PHI to be used for research by organizations without vour consent.

You have the right to access your medical records. Contact your provider to request a copy. When you request your medical records to be shared with others, you may be required to sign an authorization form.

We may ask you for permission to use your personal data for non-routine purposes. Of course, when we ask, you have the right to refuse. If you lack the ability to authorize a release, we obtain authorization from persons recognized by state and federal laws to give such permissions.

¹EME (Eligible Medical Expenses) means the maximum amount the Plan will pay for a Covered Service in accordance with the Plan Reimbursement Schedule.

²Includes covered preventive exams, labs, diagnostic tests/procedures and prescription drugs as set forth by the federal government.

The Member/Insured is responsible for all charges in excess of EME. Non-Plan Provider charges are not covered, other than for Urgently Needed or Emergency Services, or Medically Necessary Services not available through a Plan Provider. Non-Plan Provider charges may be substantial and do not accrue toward the Calendar Year Out of Pocket Maximum. These Plans include additional benefits, exclusions and limitations which are shown in the Health Plan of Nevada or Sierra Health and Life Agreement of Coverage, Attachment A Benefit Schedule, any other applicable Riders and the Summary of Benefits and Coverage. Copies of these documents are available upon request. Plan documents govern in resolving any benefit questions or payments.
