Required Exclusion(s)

Exclusion	Timeframe
<ul style="list-style-type: none"> • Members in hospice or using hospice services • Members who died 	Any time during the measurement year

Tips and Best Practices to Help Close This Care Opportunity:

- **Standing orders** can help your office staff be part of the vaccination process
 - Offer vaccine information sheets (VIS) to read while patients wait
 - Medical assistants can verify interest and obtain the vaccine to be administered
 - Train staff to answer questions, administer and document in the patient's chart
 - Consider having front office staff offer VISs in the patient's preferred language
 - Immunize.org offers numerous translations that can be selected and printed, as needed
- Have **office staff wear pins** that show they've been vaccinated to help prompt patients to ask questions
 - Example: A 'Got my flu shot' button may prompt someone to ask if flu shots are available
- Provide patients **information about vaccines** based on timing and eligibility
 - As members are turning 50, share information about the shingles vaccine
 - Ask or check when patients received their last Tdap, has it been 10 years?
 - If they have a qualifying health condition or turning 65, share information about pneumonia vaccines
 - September through November provide information on influenza vaccines
- Stock vaccines in your office to make the visit a single stop for the patient and leverage trained staff to administer as part of their visit
- Consider which vaccines are most commonly needed based on your community
- Have a quick reference where patients can get vaccines not stocked at your office

Adult Immunization Status (AIS-E) (cont.)

Tips and Best Practices to Help Close This Care Opportunity: (cont.)

- Place images and information about vaccinations throughout your office, including that they may be covered by the patient's health plan or low cost, on:
 - Posters
 - Placards
 - Stickers on charts
- Sharing member demographic data is critical to understanding the cultural, linguistic and social needs of those we serve and decreasing health inequities across

the care continuum. This data can include, but is not limited to, race, ethnicity, language, sexual orientation, gender identity, pronouns, sex assigned at birth and disability status.

- As part of UnitedHealthcare's clinical structured data exchange program, we encourage you to include this demographic data with any structured data file or CCD. Your information is confidential. UnitedHealthcare will keep personally identifiable information confidential and won't disclose any information without your written consent.
