Tips and Best Practices to Help Close This Care Opportunity

- Please be sure to have members come in for an ambulatory or preventive care visit annually.
- **Please check your Patient Care Opportunity Report (PCOR) or Practice Assist often to see members with open care opportunities that can be addressed during a well-care visit.** If you have questions, your UnitedHealthcare representative can help.
- Sharing member demographic data is critical to understanding the cultural, linguistic and social needs of those we serve and decreasing health inequities across the care continuum. This data can include, but is not

limited to, race, ethnicity, language, sexual orientation, gender identity, pronouns, sex assigned at birth and disability status.

- As part of UnitedHealthcare's clinical structured data exchange program, we encourage you to include this demographic data with any structured data file or CCD. Your information is confidential. UnitedHealthcare will keep personally identifiable information confidential and won't disclose any information without your written consent.
