

Avoidance of Antibiotic Treatment for Acute Bronchitis/Bronchiolitis (AAB)

New for 2025

- No applicable changes for this measure

Yes!

Supplemental data accepted for required exclusions only

Definition

Percentage of episodes for members ages 3 months and older with a diagnosis of acute bronchitis/bronchiolitis between July 1 of the year prior to the measurement year through June 30 of the measurement year who were **not** dispensed an antibiotic medication on or 3 days after the episode. A higher rate indicates appropriate treatment (not prescribed an antibiotic).

Tips and best practices to help close this care opportunity

- Please check your Patient Care Opportunity Report (PCOR) or Practice Assist often to see members with open care opportunities.** If you have questions, your UnitedHealthcare representative can help.
- An episode for bronchitis/bronchiolitis will **not** count toward the measure denominator if the member was diagnosed with 1 of these conditions within 12 months of the event:

 - Chronic obstructive pulmonary disease (COPD)
 - Disorders of the immune system
 - Emphysema
 - HIV
 - Malignant neoplasms
 - Other malignant neoplasms of the skin
- An episode for bronchitis/bronchiolitis will **not** count toward the measure denominator if the member was diagnosed with either pharyngitis or a competing diagnosis on or 3 days after the episode date
- Sharing member demographic data is critical to understanding the cultural, linguistic and social needs of those we serve and decreasing health inequities across the care continuum. This data can include, but is not limited to, race, ethnicity, language, sexual orientation, gender identity, pronouns, sex assigned at birth and disability status.

 - As part of the UnitedHealthcare clinical structured data exchange program, we encourage you to include this demographic data with any structured data file or CCD. Your information is confidential. UnitedHealthcare will keep personally identifiable information confidential and won't disclose any information without your written consent.
- Supplemental data may be used for required exclusions
